

### **AMENDMENT TO THE SPECIFICATION**

Please insert the following paragraph at the end of page 20.

The high performance elastomer may constitute about 10-35% by weight of the film. The low performance elastomer may constitute about 5-30% by weight of the film. The filler particles may constitute greater than about 50% by weight of the film. In one embodiment, the film may include about 10-35% by weight of the high performance elastomer, about 5-30% by weight of the low performance elastomer, and about 51-70% by weight of the filler particles.
